Summary

Currently, Pankaj is doing his Ph.D. (externally sponsored by beanTech srl, an Italian technology company) at University of Udine in the field of Computer vision and Artificial Intelligence. His daily work includes developing models that can do real-life complex classification tasks, like anomaly detection, object detection, etc, in industrial application domain.

Research area - Artificial Intelligence, Computer Vision, Deep Learning, Machine Learning, Data Analytics, Anomaly Detection

Apart from this Pankaj also practices and teaches Yoga regularly and practices a healthy and active lifestyle.

Experience

AXISCADES
Assistant Engineer Analyst – Jan 2015 – Sept 2016

Airbus India Operations
Material and Processes Engineer (Subcontracted by AXISCADES) Apr 2015 - Jul 2016

Safran Engineering Services
R&D Stress Analysis Engineer - Dec 2013 - Jul 2014

TECHNOLOGY TRAINING AND RESEARCH CENTRE
Trainee (CAE+CAD) - Aug 2013 - Nov 2013

Education

Università degli Studi di Udine
Doctor of Philosophy - PhD, Artificial Intelligence and Computer Vision (2018 – 2021)
Supervisor*: Prof. Gian Luca Foresti*

The Ph.D. is intended to develop novel "Deep Neural Network" for complex classification tasks in real world industrial scenarios. Work majorly focuses on anomaly detection and computer vision. Thesis under writing…

InterMaths : Erasmus Mundus Joint Master Degree & Double Degree Programmes

Master's in Interdisciplinary mathematics in Engineering and Finance. Spent two years in two different universities.

Thesis: “Some transformation of Multivariate Normal Random Vectors and Their Application to Statistics”

Supervisor: *Dr Agnieszka Kulawik*

University of Silesia in Katowice (5/5)

Master's degree, Applied Mathematics in Finance (2017 – 2018)

Università degli Studi dell'Aquila (98/110)

Master's Degree, Mathematical Modelling in Engineering (2016 – 2017)

Uttar Pradesh Technical University

B.Tech, Aeronautical Engineering (2009 – 2013)

Skills

Machine Learning

- Neural networks/Deep learning, metric learning, neural trees, support vector machines, incremental learning, dimensionality reduction, optimization, few shot learning, Classical ML
- Environments/Tools: pytorch, torch, tensorflow, keras, python, c/c++, anaconda, spyder, pycharm, SQL and Non-SQL databses

Computer Vision

- visual understanding/recognition/detection/tracking, feature learning, feature extraction, feature Matching, anomaly detection, anomaly localization, camera setting, optical flow, classical CV
- Environments/Tools: pytorch, python, c#, c/c++, spyder, pycharm, matlab, visual studio

Honors, Awards and Grants

Ph.D. Grant by External Institution (beanTech srl), 2018 – Grant covers the Ph.D. scholarship and all research cost during the period of my PhD research.

Hackathon Uniud Winner, 2019 – Won Hackathon organized by university of Udine in June 2019 by providing deep learning solution to an industrial problem within 24 hrs.

Erasmus+ Grant – Erasmus grant covers all the expenses of dual master's degree in Italy and Poland.

Erasmus Social - Erasmus Student Network, Nov 2017, awarded for participating in the Social Erasmus programs organized by Erasmus Student Network, Poland.

Achievement of Merit - Feroze Gandhi Institute of Engineering and Technology, Sep 2010, Awarded for the best performance in academics in year 2009-2010.

edX Grant – Received grant from edX which covered 95% of the certification cost for 1) Basic in R – by Harvard University 2) Deep learning Explained and C++ by Microsoft

Member and Association

- IAPR – Italian Association of Pattern Recognition, Italian Chapter 2018 – till date
- Reviewer for Elsevier – Artificial Intelligence in Medicine
- Reviewer for International Journal of Neural Systems

Language

- English – Professional Fluency (almost native)
- Hindi /Bhojpuri – native
- Italian – B1
- Polish – A1

Teaching activities

- **Cybersecurity and Unsupervised Machine Learning** April – July 2020, 16 hrs

  academic course, University of Udine, Italy
